Mechanics' and Engineers' Pocketbook of Tables May 12 2021 **Adaptation in Young Adult Novels** Oct 17 2021 [Adaptation in Young Adult Novels](#) argues that adapting classic and canonical literature and historical places engages young adult readers with their cultural past and encourages them to see how that past can be rewritten. The textual afterlives of classic texts raise questions for new readers: What can be changed? What benefits from change? How can you, too, be agents of change? The contributors to this volume draw on a wide range of contemporary novels - from Rick Riordan's Percy Jackson series and Megan Shepherd's Madman's Daughter trilogy to Jesmyn Ward's *Salvage the Bones* - adapted from mythology, fairy tales, historical places, and the literary classics of Shakespeare, Charles Dickens, Jane Austen, and F. Scott Fitzgerald, among others. Unpacking the new perspectives and critiques of gender, sexuality, and the cultural values of adolescents inherent to each adaptation, the essays in this volume make the case that literary adaptations are just as valuable as original works and demonstrate how the texts studied empower young readers to become more culturally, historically, and socially aware through the lens of literary diversity.

[Life on the Color Line](#) Jan 08 2021 "Heartbreaking and uplifting... a searing book about race and prejudice in America... brims with insights that only someone who has lived on both sides of the racial divide could gain."—Cleveland Plain Dealer "A triumph of storytelling as well as a triumph of spirit."—Alex Kotlowitz, award-winning author of *There Are No Children Here* As a child in 1950s segregated Virginia, Gregory Howard Williams grew up believing he was white. But when the family business failed and his parents' marriage fell apart, Williams discovered that his dark-skinned father, who had been passing as Italian-American, was half black. The family split up, and Greg, his younger brother, and their father moved to Muncie, Indiana,

where the young boys learned the truth about their heritage. Overnight, Greg Williams became black. In this extraordinary and powerful memoir, Williams recounts his remarkable journey along the color line and illuminates the contrasts between the black and white worlds: one of privilege, opportunity and comfort, the other of deprivation, repression, and struggle. He tells of the hostility and prejudice he encountered all too often, from both blacks and whites, and the surprising moments of encouragement and acceptance he found from each. *Life on the Color Line* is a uniquely important book. It is a wonderfully inspiring testament of purpose, perseverance, and human triumph. Winner of the Los Angeles Times Book Prize [Revolution in Black and White](#) Jun 12 2021 Ernest C. Withers was one of the most prominent African-American photographers of the civil rights era. During the course of his work, he took thousands of photographs that document the civil rights movement--from the Emmett Till trial in 1955 to the assassination of Martin Luther King in 1968. What set his work apart was that he goes beyond the political struggles to explain the civil rights movement that changed the country. Withers was primarily a local photographer, working as a freelancer for the Memphis World and Tri-State Defender starting in 1948. His photographs of the everyday world--bridge clubs, funerals, people at work and play, and street life--create a stunning record of what it was like to live in Memphis and the Mid-South. He was also a noted baseball photographer, documenting Negro League baseball in Memphis, and a noted music photographer, taking thousands of photographs of jazz, blues, rock 'n' roll and R&B performers. This book combines this work for the first time and uses first-hand accounts of people who lived in the South to explain these transformative years. The photographs, taken as bare-bones journalism, rises to the level of fine art decades later. They are also important examples of photojournalism, documenting decades of struggle in Memphis and the Mid-South. They serve as an important missing link in the civil rights narrative. In 2010, three years after his death, the Memphis Commercial Appeal newspaper published a series of articles that showed that Withers was a paid informant of the FBI. This book goes beyond the headlines to show how Withers created an essential record for all of us to better understand life in the South during this crucial era.

Composition in Black and White Oct 29 2022 George Schuyler, a renowned and controversial black journalist of the Harlem Renaissance, and Josephine Cogdell, a blond, blue-eyed Texas heiress and granddaughter of slave owners, believed that intermarriage would "invigorate" the races, thereby producing extraordinary offspring. Their daughter, Philippa Duke Schuyler, became the embodiment of this theory, and they hoped she would prove that interracial children represented the final solution to America's race problems. Able to read and write at the age of two and a half, a pianist at four, and a composer by five, Philippa was often compared to Mozart. During the 1930s and 40s she graced the pages of Time and Look magazines, the New York Herald Tribune, and The New Yorker. Philippa grew up under the adoring and inquisitive eyes of an entire nation and soon became the role model and inspiration for a generation of African-American children. But as an adult she mysteriously dropped out of sight, leaving America to wonder what had happened to the "little Harlem genius." Suffering the double sting of racism and gender bias, Philippa had been rejected by the elite classical music milieu in the United States and forced to find an audience abroad, where she flourished as a world-class performer and composer. She traveled throughout South America, Europe, Africa, and Asia performing for kings, queens, and presidents. By then Philippa had added a second career as an author and foreign correspondent reporting on events around the globe--from Albert Schweitzer's leper colony in Lambréné to the turbulent Asian theater of the 1960s. She would give a command performance for Queen Elisabeth of Belgium one day, and hide from the Viet Cong among the ancient graves of the Annam kings another. But behind the scrim of adventure, glamour, and intrigue was an American outcast, a woman constantly searching for home and self. "I am a beauty--but I'm half colored...so I'm always destined to be an outsider," she wrote in her diary. Philippa tried to define herself through love affairs, but found only disappointment and scandal. In a last attempt to reclaim an identity, she began to "pass" as Caucasian. Adopting an Iberian-American heritage, she reinvented herself as Felipa Monterro, an ultra-right conservative who wrote and lectured for the John Birch Society. Her experiment failed, as had her parents'

dream of smashing America's racial barriers. But at the age of thirty five, Philippa finally began to embark on a racial catharsis: She was just beginning to find herself when on May 9, 1967, while on an unauthorized mission of mercy, her life was cut short in a helicopter crash over the waters of war-torn Vietnam. The first authorized biography of Philippa Schuyler, *Composition in Black and White* draws on previously unpublished letters and diaries to reveal an extraordinary and complex personality. Extensive research and personal interviews from around the world make this book not only the definitive chronicle of Schuyler's restless and haunting life, but also a vivid history of the tumultuous times she lived through, from the Great Depression, through the Civil Rights movement, to the Vietnam war. Talalay has created a highly perceptive and provocative portrait of a fascinating woman.

The Media in Black and White Sep 27 2022 The media's treatment of and interaction with race, like race itself, is one of the most sensitive areas in American society. Whether in its coverage and treatment of racial matters or racial connections inside media organizations themselves, mass communication is deeply involved with race. The *Media in Black and White* brings together twenty journalists and scholars, of various racial backgrounds, to grapple with a controversial issue: the role that media industries, from advertising to newspapers to the information superhighway, play in helping Americans understand race. Contributors include Ellis Cose, a contributing editor for Newsweek; Manning Marable, chairman of Columbia University's African-American Research Center; William Wong, a columnist for the Oakland Tribune; Lisa Penalzoza, a University of Illinois professor; and Melita Marie Garza, a Chicago Tribune reporter. Among the topics discussed are: the quality of reporting on immigrant issues; how sensationalism may be deepening the chasm of misunderstanding between the races; how the coverage of America's drug wars has been marked by racism; and whether politically correct language is interfering with coverage of vital issues and problems. The contributors of *The Media in Black and White* hope to broaden the narrow vision of the United States and the world beyond with their contributions to the debate over race and the media. The commentary found in this important work will be of interest to sociologists, communication specialists, and black studies scholars.

The Great State of White and High Feb 18 2022 "In the late tenth and eleventh centuries, a group of people known in Western and Japanese scholarship as the Tangut established an independent regime

in the Ordos (present-day Ningxia, Shaanxi, Gansu, and Inner Mongolia). It quickly grew into the Xia empire, a multiethnic, multilingual state whose ruling dynasty, a people ethnically and linguistically related to Tibetans, adapted elements of Chinese and Inner Asian statecraft, culture, and religion. Xia continued to grow in prominence, and its people became renowned throughout Asia as devout Buddhists. An imperial state was formally born in 1038 and chronicled its existence up to 1227, when it was finally crushed in Chinggis Khan's last campaign." "The Great State of White and High is the first book-length treatment in English of Tangut Xia history. Exhibiting a mastery of languages, Ruth Dunnell has produced a pioneering, systematic study using primary and secondary sources in Tangut and Chinese to reconstruct early imperial Xia history from the inside."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Being White in the Helping Professions Jul 26 2022 In this reflective yet practical book, the author challenges white helping professionals to recognize their own cultural identity and the impact it has when practising in a multicultural environment. Judy Ryde reveals how white people have implicit and explicit advantages and privileges that often go unnoticed by them. She suggests that in order to work effectively in a multicultural setting, this privilege needs to be fully acknowledged and confronted. She explores whether it is possible to talk about a white identity, addresses uncomfortable feelings such as guilt or shame, and offers advice on how to implement white awareness training within an organization. Ryde offers a model for 'white awareness' in a diverse society and provides concrete examples from her own experience. This book is essential reading for students and practitioners in the helping professions, including social workers, psychotherapists, psychologists, counsellors, healthcare workers, occupational therapists and alternative health practitioners.

White People in Shakespeare Mar 29 2020 What part did Shakespeare play in the construction of a 'white people' and how has his work been enlisted to define and bolster a white cultural and racial identity? Since the court of Queen Elizabeth I, through the early modern English theatre to the storming of the United States Capitol on 6

January 2021, white people have used Shakespeare to define their cultural and racial identity and authority. *White People in Shakespeare* unravels this complex cultural history to examine just how crucial Shakespeare's work was to the early modern development of whiteness as an embodied identity, as well as the institutional dissemination of a white Shakespeare in contemporary theatres, politics, classrooms and other key sites of culture. Featuring contributors from a wide range of disciplines, the collection moves across Shakespeare's plays and poetry and between the early modern and our own time to interrogate these relationships. Split into two parts, 'Shakespeare's White People' and 'White People's Shakespeare', it explores a variety of topics, ranging from the education of the white self in Hamlet, or affective piety and racial violence in Measure for Measure, to Shakespearean education and the civil rights era, and interpretations of whiteness in more contemporary work such as American Moor and Desdemona.

Witte onschuld Dec 19 2021 In Witte onschuld onderzoekt Gloria Wekker een centrale paradox in de Nederlandse samenleving: de passie en agressie die ras oproept, terwijl het bestaan van ras en racisme tegelijkertijd in alle toonaarden wordt ontkend. In haar verkenning van het dominante zelfbeeld van de witte Nederlander is het 'culturele archief' een leidend concept: de diep ingesleten attitudes en emoties die racisme in stand houden en hun oorsprong kennen in het koloniale verleden. In een nieuw uitgebreid voorwoord kijkt Gloria

Wekker terug op het jaar 2020, in meerdere opzichten een annus horribilis, en komt zij uit op vier nieuwe paradoxen, aanvullend op de vier tegenstellingen die zij al noemde in de oorspronkelijke inleiding van Witte onschuld.

The American Church in Black and White Dec 31 2022 The American Church in Black and White is a book born out of the authors love for Gods church. It was shaped and given form and text in the crucible of the authors experience as a pastor of several Indiana congregationscongregations that attempted to create a Christian, counter-narrative, to the tragic narrative and legacy of our nations history of slavery and racism. Cautiously optimistic in tone, the author posits that if the American church is going to live into Christs prayer request for His church to be one (John 17:21), if the church is going to deal effectively with the fallen powers and win people to the Lord, then Christians will have to face and overcome the complex and tragic history of racial antipathy in this country; also, the church will have to learn how to successfully navigate a spiritual and cultural minefield. The author has distilled the three main cultural controversies (mines) that can explode/implode the churchs intercultural hopes, down to:1) Culturally-Based Worship Preferences 2) Culturally-Based Views on Ministerial Authority, and 3) Biblical Hermeneutics in Black and White. It is the authors conviction that in spite of these areas of potential conflict, God has given the church the power to become an intercultural community that is distinctive, attractive, and authentically Christian
