Resource added for the Paralegal program 101101. "A trenchant summation" and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists, including US citizens (Publishers Weekly, starred review). In the long response to 9/11, the US government initiated a deeply controversial policy of "targeted killing"—the extrajudicial execution of suspected terrorists and militants, typically via drones. A remarkable effort was made to legitimize this practice; one that most human rights experts agree is illegal and that the United States has historically condemned. In *The Drone Memos*, civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action. In a lucid and provocative introduction, Jaffer, who led the ACLU legal team that secured the release of many of the documents, evaluates the drone memos in light of domestic and international law. He connects the documents' legal abstractions to the real-world violence they allow, and makes the case that we are trading core principles of democracy and human rights for the illusion of security. "A careful study of a secretive counterterrorism infrastructure capable of sustaining endless, orderless war, this book is profoundly necessary." —Katrina vanden Heuvel, editor and publisher of *The Nation* Some people cant see the forest for the treesthey get so bogged down in details that they lose sight of what its all about. Others cant see the trees for the forestthey miss the wondrous details all around them. So why not look instead at both the forest and the trees?

This commentary on Paul's letter to the Colossians guides you in doing just that. Even though we will be exploring ancient biblical cultures and learning plenty about the Greek language, no prior academic training is needed. Technical terms have been set aside. Instead, with everyday language we will discover the big picture and revel in the fine details of this stunning letter, amazed by how God is still speaking these same words today to contemporary personal and social challenges. We will not then be tourists rapidly zipping through Colossians as if on a monotonous interstate highway. Instead we will be hiking our way through this letter, step by step, phrase by phrase, finding joy in God's truth and growing in our faith. Come and join the journey. While it is generally agreed amongst criminologists that the world of crime is predominantly the domain of men, women played a much larger role than they do today before the twentieth century. Even then, women tended to commit property offences like theft, shoplifting, fraud, and forgery, as well as prostitution or soliciting. However, there have been those throughout history who have also committed some of the most brutal murders the world has ever known. "Women Who Killed" looks at the most notorious murder cases involving women from the 18th & 19th centuries, examining in detail their crimes, characters, trials, and punishments. Offering a fascinating yet chilling insight into the minds and crimes of female murderers, "Women Who Killed" is highly recommended for those with an interest in historic crimes and criminology in general. Contents include: "Mary Blandy", "Mrs. Margaret Caroline Rudd", "Mary

History is proudly publishing this brand new collection of classic articles now complete with the introductory essay "The Relations of Women to Crime" by Ely Van De Warker. Coronavirus (COVID-19) is one of the major plagues currently haunting the earth. The Coronavirus disease (COVID-19) has so far infected and killed thousands of people worldwide and has been branded a global pandemic. Several nations are reporting not just infections from the outbreak, but deaths! Authorities say the numbers of dead and infected could keep multiplying for weeks or months. This virus has emptied the streets of proud cities, national and international airlines have been grounded. Schools have been closed, entertainment and sporting events are closed, businesses and offices are closing down on a daily basis because of the fear of this deadly pandemic called Coronavirus. Even friendly handshakes are now avoided to elbow shakes. There is a need to pray that God should stop the virus from spreading further. We will pray for the spread of the virus to stop, the virus should lose its power. God is a supreme being, He has power over everything, and our prayer of healing and prevention of Coronavirus would cause God to put a stop to it. Psalm 107:20- "'He sent his word, and healed them, and delivered them from their destructions.'" While praying, we should pray for those that have been affected by the virus that God Himself should heal them. The Bible made us understand that God is a powerful healer, He can stretch forth His hands and heal millions of people

in a second. Enough of people dying from the virus, we will be praying God should heal everyone that has been affected by the virus. The scripture says for we bear the mark of Christ, let no man trouble us. We must pray that the hands of God be upon each and every one of us and protect us from this demonic virus. Exodus 15:26- "And said, If thou wilt diligently hearken to the voice of the LORD thy God, and wilt do that which is right in his sight, and wilt give ear to his commandments, and keep all his statutes, I will put none of these diseases upon thee, which I have brought upon the Egyptians: for I am the LORD that healeth thee." Shalom! "The Bible Delusion: 101 'Hang on a Minute' Moments; and God's Mysterious Ways" comprises an easy to read summary of 101 examples of absurdity in the King James Version of the Bible, dismantling everything from the Genesis creation myth to the coherency of The Gospels. More aspects are categorised into groups that are anything but 'godlike' in their nature. The Bible is full of bizarre rules, regulations and instructions - on animal sacrifice, war, including genocide and ethnic cleansing, misogyny, slavery, and much more - straight from God. There are numerous contradictions, anomalies, anachronisms and oddities, many of which are explored and explained in this comprehensive work. This book is a selection of essays that aim to provide "snap shots" which explore aspects on how these creatures live in human-dominated landscapes. Hopefully, this book will be the closest that ANY reader will get to an experience with COVID-19. This book will place you inside of the very grip of death as it exists inside of a COVID-19 reclusive medical ward! This book will

take you from the very edge of DEATH (within moments - even seconds of DEATH!) to complete recovery and total victory over the DEVIL DISGUISED AS COVID-19! This is the story of 18 days that changed my life forever! In December of 2019 a new, strange, and previously unknown virus mysteriously "escaped a lab in Wuhan, Hubei, China. The virus, which would spark a pandemic, was first reported in China on December 31, 2019." . . . The angel disguised as a doctor, said something very scary to me: "IF YOUR HEART STOPS, DO YOU WANT TO BE RESUSITATED? I said, "Yes, Of course I do!" . . . Thank God he did; because my heart DID stop!!! _____

Finally--- An Ex-FBI agent rips away the veil of secrecy exposing FBI treason in the cover-up of the CIA's twisted resolve to kill JFK. He names CIA trained Cuban exiles, Gangsters and bad cops. From the bestselling coauthor of Wittgenstein's Poker, a fascinating tour through the history of moral philosophy A runaway train is racing toward five men who are tied to the track. Unless the train is

stopped, it will inevitably kill all five men. You are standing on a footbridge looking down on the unfolding disaster. However, a fat man, a stranger, is standing next to you: if you push him off the bridge, he will topple onto the line and, although he will die, his chunky body will stop the train, saving five lives. Would you kill the fat man? The question may seem bizarre. But it's one variation of a puzzle that has baffled moral philosophers for almost half a century and that more recently has come to preoccupy neuroscientists, psychologists, and other thinkers as well. In this book, David Edmonds, coauthor of the bestselling Wittgenstein's Poker, tells the riveting story of why and how philosophers have struggled with this ethical dilemma, sometimes called the trolley problem. In the process, he provides an entertaining and informative tour through the history of moral philosophy. Most people feel it's wrong to kill the fat man. But why? After all, in taking one life you could save five. As Edmonds shows, answering the question is far more complex—and important—than it first appears. In fact, how we answer it tells us a great deal about right and wrong. The definitive history of the first six months of the 2020 global coronavirus pandemic, the enemy that would change the world forever. In the final days of 2019, a new and deadly virus was quietly spreading through the city of Wuhan, China. Within six months it would kill half a million people worldwide, infect a further 10 million, and change the way we live, work and play forever. Now, reporters Dylan Howard and Dominic Utton, collaborating from New York and London—infection hotspots in what would become two

of the worst-hit nations on Earth—have together mapped the rise, spread and impact of the virus . . . and uncovered some explosive revelations.

COVID-19: The Greatest Cover-Up in History—From Wuhan to the White House delivers the truth about what is undoubtedly the biggest political scandal of our time. It shows in unprecedented detail how governments in China, the UK, and the US not only failed to protect their citizens from the threat of the disease, but also actively conspired to put their own political and economic ideologies above the lives of ordinary people. From early attempts by Beijing to silence any reports of the virus to the inability of the WHO to act decisively; from warnings received and ignored by President Trump to decisions taken by the UK government that directly led to the loss of tens of thousands of lives; from whispers of military experiments to outlandish 5G conspiracy theories, Howard and Utton separate fact from fiction, science from hysteria, and expose a trail of dead bodies, willful mismanagement, incompetence, arrogance, deliberate cover-ups, and outrageous lies that raise serious questions about who is really responsible for the hundreds of thousands killed by COVID-19. Through vigorous investigations, dedicated reporting, and exclusive first-person sourcing, this book unearths a more complex understanding of the rise, spread, and consequences of the first six months of the pandemic than has yet been seen, and exposes shocking revelations about the roles and motivations of the American and British governments in the crisis. The true story of COVID-19 is not just that of a silent killer that suddenly invaded the world but also the

scandal of a global tragedy that could have—and should have—been prevented. The real number of deaths and infections from the virus will never be known. The figures have not only been underreported in China, but also by supposedly transparent governments in the West for reasons less connected with public safety and more to do with their own mendacity, incompetence, and corruption. Written with the urgency and tension of a thriller novel but grounded in rigorously factual reporting, this book is the essential read on the most horrifying scandal of our age. "Shoot all the bluejays you want, if you can hit 'em, but remember it's a sin to kill a mockingbird." A lawyer's advice to his children as he defends the real mockingbird of Harper Lee's classic novel—a black man charged with the rape of a white girl. Through the young eyes of Scout and Jem Finch, Harper Lee explores with rich humor and unswerving honesty the irrationality of adult attitudes toward race and class in the Deep South of the 1930s. The conscience of a town steeped in prejudice, violence, and hypocrisy is pricked by the stamina and quiet heroism of one man's struggle for justice—but the weight of history will only tolerate so much. One of the best-loved classics of all time, *To Kill a Mockingbird* has earned many distinctions since its original publication in 1960. It has won the Pulitzer Prize, been translated into more than forty languages, sold more than forty million copies worldwide, and been made into an enormously popular movie. It was also named the best novel of the twentieth century by librarians across the country (*Library Journal*). HarperCollins is proud to celebrate the fiftieth anniversary of the book's

publication with this special hardcover edition. The fourth arc ends with a bang! If Dylan can't get to the trouble, well...it'll just come to him. At the age of eight, Scout Finch is an entrenched free-thinker. She can accept her father's warning that it is a sin to kill a mockingbird, because mockingbirds harm no one and give great pleasure. The benefits said to be gained from going to school and keeping her temper elude her. The place of this enchanting, intensely moving story is Maycomb, Alabama. The time is the Depression, but Scout and her brother, Jem, are seldom depressed. They have appalling gifts for entertaining themselves--appalling, that is, to almost everyone except their wise lawyer father, Atticus. Atticus is a man of unfaltering good will and humor, and partly because of this, the children become involved in some disturbing adult mysteries: fascinating Boo Radley, who never leaves his house; the terrible temper of Mrs. Dubose down the street; the fine distinctions that make the Finch family "quality"; the forces that cause the people of Maycomb to show

compassion in one crisis and unreasoning cruelty in another. Also because Atticus is what he is, and because he lives where he does, he and his children are plunged into a conflict that indelibly marks their lives—and gives Scout some basis for thinking she knows just about as much about the world as she needs to. The CSB stays as literal as possible to the Bible's original meaning without sacrificing clarity, making it easier to engage with Scripture's life-transforming message and to share it with others. This book merges and harmonizes the four Gospels of Matthew, Mark, Luke, and John into one. This unified version, which I call The Gospel, is based on the faith that the four different gospels exist in order to form together the complete story of Jesus' life and ministry. I consolidated these sources by identifying common denominators among them as well as parts that are unique to each, and then interweaving it all into a single narrative, using only original texts. This integrated version may offer greater incentive to our youth, laymen, and non-believers as well as professionals to read and learn more about what Jesus did and taught. (Acts 1:1). In the past, there have been many attempts to make the four Gospels easier for readers, often displaying similar episodes in parallel columns, in an effort to resolve the Gospels' narrative complexity by harmonizing them in one way or another; however, in regard to the text itself, previous books do not rise to the level of precision and completeness that is achieved here. Answering this need for a clear chronological telling of The Story of Jesus, this book unifies every account of the four Gospels into a single story, without omitting or compromising any part. On a given topic in Jesus' ministry, this book uses as its base

whichever gospel is the greatest common denominator, consolidates identical or similar parts from other Gospels, and integrates the unique and different elements of each book into a single story.
